

REFERENCE LETTER

Hereby I would like to express my gratitude to the Financial Business English School team and share with my experience acquired while taking the course.

I have worked within the field of finance for over eight years in banking system, then as a senior accountant for an international company and as a self-employed individual as well, continuously dealing with the correspondence and communication in English and thereby being very well aware of the problems in how English, especially Business English works.

Having attended a number of English courses earlier and taken this course then, I do not hesitate to assert that it has proved to be the most intensive one, with a high-performance framework developed, meaning the structure of the course covers both four pillars of English – Reading, Listening, Writing, Speaking and all-purpose business approach based on a wide range of finance-related subjects.

Just to elaborate a bit more on efficiency, I would like to emphasize that the course methodology gives you a strong incentive to speak business English and sound fluent through the psychologically literate strategies implemented. Namely, for the first step you are supposed to learn the stuff by yourself via the Internet which, if necessary, is accompanied by your tutor's on-line support and then, with all the acquired background, to attend the English classes having brainstorming sessions. What is more, the top-list feature of the program is that apart from being extremely interesting and helpful the program is very easy to navigate.

Another thing, which is worth mentioning is that the program is tailored to people of business thus enabling them to make a maximum progress within a concise time what is of paramount importance nowadays.

Therefore by this Letter I'd like to express my deep satisfaction with the program as well as my gratitude and respect to the team of tutors for their excellent teaching, attentive attitude and personalized approach to every student.

My special thanks are due to our supervisor Mrs. Elena Pererva whose dedication to what she does, professionalism and enthusiasm coupled with precious ability to create a favorable climate in English classes have been a great encouragement.

Besides the aforesaid I consider it might be vital to mention that even after the course completion I have been receiving a prompt feedback on all my requests from the Financial Business English School what in turn creates a desire to hone my English by establishing enduring relationships with the School.

So, with the view of the foregoing and regardless whether you are the beginner or an old hand at Business English I wholeheartedly recommend taking this course with Business English School and thereafter you will definitely find yourself progressing tremendously.

Yours sincerely,

Marina Parkhomenko
